### ***The Room Nobody Knows* by Niwa Gekidan Penino (Japan)**

**Date and Location:** 3 shows: January 30th, 31st, and Feb. 1st, each night 8:00pm-9:00pm  
FringeArts  
140 N. Columbus Blvd. (at Race St.)  
Philadelphia, PA 19106

Description: A surreal, semi-autobiographical fever dream from the mind of Japanese psychiatrist-turned- playwright Kuro Tanino, *The Room Nobody Knows* centers on two brothers who inhabit a mysterious, otherworldly apartment. On the day of the elder brother's birthday, the younger, who is supposed to be studying for college entrance exams, is preoccupied with creating unusual objects for the celebration. Meanwhile, in the upper room, the younger brother's alter-egos take the form of creatures that help with the party preparations. The brothers' enigmatic, erotic world — replete with pig faces, phalluses, demented plastic heads and secret compartments — plays out on a comically claustrophobic set placed atop the FringeArts stage.

Have Abenomics put Japan once again on the road to global economic prominence? Or will the apparent success of Abe's policies prove to be short-lived?

## **Disasters and Rebuilding in Japan: Perspectives and Testimonies from the Tri-Co Collection**

**Date and Location:** Swarthmore College, McCabe Library, Dec. 4, 2013 - Jan. 19, 2014  
Bryn Mawr College, Canaday Library, Dec. 5, 2013 - March 7, 2014

This exhibition reflects the collaborative efforts of the Bryn Mawr 360° program Perspectives on Sustainability: Narratives of Disasters and Rebuilding in Japan. 360° programs are unique educational experiences designed to expand beyond the boundaries of the classroom and bridge between disciplines and communities. Usually taught in clusters of two or more courses, 360° programs cultivate in-depth and interdisciplinary scholarship, collaborative research, and creative community interaction. For Perspectives on Sustainability, participants enrolled in three course all focused on the history of disaster in Japan. Under the guidance of Bryn Mawr College Professor Carola Hein (Growth and Structures of Cities) and Swarthmore College Professors William Gardner (Japanese Modern Languages and Literatures) and Tomoko Sakomura (Art), the 360° students focused their research on four catastrophic events: The Great Kanto Earthquake of 1923, the 1945 Atomic Bombings of Hiroshima and Nagasaki, the Kobe Earthquake of 1995, and the triple disaster of March 11, 2011.

Students considered the historical impact of these disasters through their representation in Japanese art, literature and documentary film, and the effected changes and continuities in urban form and architecture. Additionally, the 360° participants grounded this larger history through primary research in the Tri-College archives and collections. This exhibition is the culmination of the students' joint efforts and explorations. Focusing on the time periods surrounding these four

major disasters, the exhibit traces the lasting relationship between the Tri-College community and Japan. In three sections, the exhibit includes thematic panels addressing pertinent scholarship, a timeline of important bridges between Tri-Co and Japan, and a selection of objects from the college collections, all of which testify to the resilience of Japanese culture and the importance of remembrance, reflection, and the extension of communities beyond the boundaries of nation.
