The Room Nobody Knows by Niwa Gekidan Penino (Japan)

Date and Location: 3 shows: January 30th, 31st, and Feb. 1st, each night 8:00pm-9:00pm
FringeArts

Description: A surreal, semi-autobiographical fever dream from the mind
of Japanese psychiatrist-turned- playwright Kuro Tanino, *The Room
Nobody Knows* centers on two brothers who inhabit a mysterious,
otherworldly apartment. On the day of the elder brother's birthday, the
younger, who is supposed to be studying for college entrance exams, is
preoccupied with creating unusual objects for the celebration.

Meanwhile, in the upper room, the younger brother's alter-egos take the form of creatures that help with the party preparations. The brothers' enigmatic, erotic world — replete with pig faces, phalluses, demented plastic heads and secret compartments — plays out on a comically claustrophobic set placed atop the FringeArts stage.

Disasters and Rebuilding in Japan: Perspectives and Testimonies from the Tri-Co Collection

Date and Location: Bryn Mawr College, Canaday Library, Dec. 5, 2013 - March 7, 2014

This exhibition reflects the collaborative efforts of the Bryn Mawr 360° program Perspectives on Sustainability: Narratives of Disasters and Rebuilding in Japan. 360° programs are unique educational experiences designed to expand beyond the boundaries of the classroom and bridge between disciplines and communities. Usually taught in clusters of two or more courses, 360° programs cultivate in-depth and interdisciplinary scholarship, collaborative research, and creative community interaction. For Perspectives on Sustainability, participants enrolled in three course all focused on the history of disaster in Japan. Under the guidance of Bryn Mawr College Professor Carola Hein (Growth and Structures of Cities) and Swarthmore College Professors William Gardner (Japanese Modern Languages and Literatures) and Tomoko Sakomura (Art), the 360° students focused their research on four catastrophic events: The Great Kanto Earthquake of 1923, the 1945 Atomic Bombings of Hiroshima and Nagasaki, the Kobe Earthquake of 1995, and the triple disaster of March 11, 2011.

Students considered the historical impact of these disasters through their representation in Japanese art, literature and documentary film, and the effected changes and continuities in urban form and architecture. Additionally, the 360° participants grounded this larger history through primary research in the Tri-College archives and collections. This exhibition is the culmination of the students' joint efforts and explorations. Focusing on the time periods surrounding these four major disasters, the exhibit traces the lasting relationship between the Tri-College community and Japan. In three sections, the exhibit includes thematic panels addressing pertinent scholarship, a timeline of important bridges between Tri-Co and Japan, and a selection of objects from the college collections, all of which testify to the resilience of Japanese culture and the importance of remembrance, reflection, and the extension of communities beyond the boundaries of nation.

Interns work closely with the Commission and its staff on the full array of issues concerning human rights, the rule of law, and governance in China (including criminal justice, democratic governance institutions, environmental problems, religious freedom, freedom of expression, ethnic minority rights, women's rights, etc.).

Interns perform important research support tasks (often in Chinese), attend seminars, meet Members of Congress and experts from the United States and abroad, and draft Commission analyses. Click here for CECC analysis of recent developments in the rule of law and human rights in China. Interns may also be trained to work with the Commission's Political Prisoner Database, which has been accessible by the public since its launch in November 2004 (click here to begin a search).

The CECC staff is committed to interns' professional development, and holds regular roundtables for interns on important China-related issues.

Summer 2014 interns will be paid \$10/hour. Those unable to apply for Summer 2014 internships may apply for the Spring (February-May) or Fall (September-December). Further details are available on the Commission's Web site at <http://www.cecc.gov/pages/general/employ.php>.

*Interns should be able to read Chinese well enough to assist with research in newspapers, journals, and on Web sites. More advanced Chinese language capability would be a plus. The successful candidate for an internship often will have lived or studied in mainland China, Hong Kong, or Taiwan.

*Although our interns are generally undergraduates, graduate students, or recent graduates, others are also welcome to apply.

Interested applicants should send a cover letter, resume, and the names and contact information for two references, to the CECC via e-mail to Judy Wright, Director of Administration at judy.wright@mail.house.gov by March 1, 2014.
